3. CONTROL OF BULLS: EXHIBITORS RESPONSIBILITY IN SHOW RING: It is recommended that there is to be one person using a rope or chain attached to a halter with a second rope or chain attached directly to the nose-ring or via the nose-ring to the halter, with a competent person standing by able to assist in the control of the bull if necessary. A staff should be used should the temperament of the bull deem it necessary. STALLS: During the period the Show is open to the public, mature bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another exhibitor or steward to oversee the bull until the handler returns.
4. **MINIMUM ENTRIES-** The chief steward reserves the right to amalgamate any breed with insufficient entries.
5. **No overstocking, sealing of teats, taping or additional shaping of udders of cows or heifers in milk allowed and any animal overstocked may be disqualified at the discretion of the Chief Cattle Steward.** The infusion of drugs in any form or to any part of the animal are not permitted. The Judge may require any animal to be milked out in his presence so that he may form an opinion of the udder after milking. Cattle lines will be monitored throughout the show. Any artificial contrivance or device of any description found on or proved to have been used on an animal at any time whilst that animal is at the showground, either for preventing the flow of milk or for any other improper purpose, will disqualify that animal from being awarded a prize, and any prize awarded prior to the discovery will be forfeited. The Instigator or The Owner of said animal may be prohibited from again entering stock for any of the Society's Shows, for such period as the Committee may see fit. For the purpose of this Regulation, the term 'improper practice' shall be held to include setting of teats and generally any other practice including tampering of their own or any other animal by the exhibitor or any other person which results in the animals being shown other than in a natural state, and the Society reserves the right to have all animals inspected by the Society's Veterinary Officers, either prior to, during, or after judging.
The Society will not tolerate the administration to show exhibits (entered either for competition or sale/demonstration) of tranquillisers or other drugs which may in any way affect the performance of the animal in question to have the effect of making it behave in the show ring in a manner which is not natural. The society reserves the right to take any necessary samples. Any person or exhibitor (or his representative) who is found to have administered or permitted the administration of any such tranquilliser or drugs to any Show Exhibit will be reported to the organising committee, and dealt with at their discretion. In addition the matter will be referred to the appropriate Breed Society or Organisation.
Any Exhibitor wishing to lodge an objection, having reference to Livestock exhibited at this show, must make the same in accordance with the objection requirements of the Society. If, on investigation, the objection is not sustained to the satisfaction of the Committee, the sum thus deposited shall, at the discretion of the Committee, be forfeited to the funds of the Society. All objections must be lodged on the same day as the alleged incident occurred in accordance with the objection regulations, and no objection will be SUBSEQUENTLY received, unless a reason, satisfactory to the Committee be assigned for the delay.
6. In-calf cows or heifers in all breeds must be served to calve within four months of the day of the Show. Should the Judge be in any doubt that any animal may not calve within four months, prize money will be withheld until evidence of calving is proved.
7. **SUBSTITUTES: Entries will close on 30th June 2017 after which substitute entries – providing they are in the same class may be made up to 14 days prior to the show, i.e. 13th July. After this date no other substitute animals will be allowed. In the case of in-calf cattle which have calved by Show Day they may be included in the appropriate in-milk classes.**
